# CableTrunk

Accessory for fire detector cable trunking

CableTrunk is an accessory designed for mains-powered FireProtect 2 AC detectors. It's a plastic connector for neat-looking wiring output that blends the detector into a standard cable tray. Using CableTrunk is ideal when it is impossible to run wiring inside the walls, as the connector provides an additional way to connect cables from two possible sides of the fire detector.

Two positions to fix the detector for the side wiring output

Minimalistic design in a compact size with effortless installation

Latches to attach CableTrunk to the mounting panel for convenient fixing with screws afterward

Clear visibility of the detector's LED indicators

The accessory is sold separately from the FireProtect 2 AC detectors.

Compatibility	Enclosure	Installation	Complete set
All FireProtect 2 AC detectors	<p><b>Color</b> white, black</p> <p><b>Dimensions</b> 144.7 × 89.3 × 18 mm</p> <p><b>Weight</b> 33 g</p> <p><b>Material</b> Polycarbonate</p>	<p><b>Operating temperature range</b> from -25 °C to +60 °C</p> <p><b>Operating humidity</b> up to 90%</p>	CableTrunk Installation kit Quick start guide
